用 20 个药品档案验证数据能否进入你的产品

先交付一个边界固定、来源可追溯的小样本，再决定是否扩展。

20 指定药品档案	1 目标市场	中 / 英 核心字段	JSON + XLSX 一次性交付
--------------	-----------	---------------	----------------------

采购后会收到什么

可接入的数据 逐条交付约定字段、商品名、通用名、剂型、规格、市场与内容版本。	可追溯的证据 每条记录附来源登记、原始链接、市场边界、缺失项和例外清单。	可执行的接入说明 附字段字典、JSON/XLSX 文件、显示边界与技术交接说明。
---	---	---

书面验收口径

1	字段与来源 约定字段齐全，并能回到指定的一手来源。
2	身份与市场 商品名、通用名、剂型和规格不跨市场混写。
3	例外与边界 历史文件、缺失和无法确认项明确标记；不生成个人用药结论。

最小启动范围与商业边界

最小启动范围与商业边界 20 个指定药品、1 个目标市场、中英文核心字段，JSON 与 XLSX 各一份。金额待财务最终确认。服务销售的是公开药品信息的整理、来源维护和显示边界，不销售药品，不处理患者数据，也不转让原始来源版权。

HEALTH-TECH AND MEDICINE-CONTENT TEAMS · PAID PILOT

Test product fit with 20 traceable medicine records

Start with a bounded, source-linked sample before deciding whether to expand.

20 named records	1 target market	ZH / EN core fields	JSON + XLSX one-off delivery
----------------------------	---------------------------	-------------------------------	--

What procurement receives

Integration-ready data Agreed fields for identity, brand, generic, form, strength, market and content revision.	Traceable evidence A source register, original links, market boundary, gaps and exceptions for every record.	Actionable handoff Field dictionary, JSON/XLSX files, display boundaries and technical handoff notes.
---	--	---

Written acceptance criteria

1	Fields and sources Agreed fields are present and return to named primary sources.
2	Identity and market Brand, generic, form and strength are not merged across markets.
3	Exceptions and boundary Historical files, gaps and unresolved items are explicit; no individual medication conclusion is generated.

Minimum scope and commercial boundary

Minimum scope and commercial boundary Twenty named medicines, one target market, bilingual core fields, and one JSON plus one XLSX delivery. Pricing remains subject to final financial confirmation. The service organizes and maintains public medicine information and display boundaries; it does not sell medicines, process patient data or transfer source copyright.
